

CVSA Operation Safe Driver Program

Thursday
August 31, 2017

Presented by Commercial Vehicle Safety Alliance

Operation Safe Driver Train-The-Trainer Courses Designed for Driver Safety Personnel

The training material for this course has been developed for the purpose of improving professional commercial vehicle drivers (CMV) driver behaviors. This material comes in Training Kits designed to build on the drivers' existing knowledge and training previously obtained while covering several topics not normally outlined in other driver training materials.

Five different training modules are included. Each module contains specific training materials and each will be outlined as part of the Train – The – Trainer Courses provided. The five subjects are:

1. Defensive Driving Part I
2. Defensive Driving Part II
3. Following the Rule of the Road
4. Beyond Distracted Driving (Work Zones and Rural Roads)
5. Defeating Distracted Driving

Each person in attendance will be provided a thumb drive that includes all of the material covered during the course. Attendees will be able to utilize this material in their own individual driver safety training programs. All versions of the training material include an instructor guide including scripted instructions and an outline of each course. Courses are designed to be interactive with the drivers, using their individual experiences to enhance training material presented.

Who: Driver Safety Personnel
