SURVEY QUESTIONS:

1) If elected, what are your top three priorities for 2017-2018?

Answer: Funding education appropriately and within a fair budget. Overhauling family court to keep children enjoying parenting time equally with both parents. This needs to be done without years of court interference and financial burden to families. Increasing jobs in Arizona by opening up to new and sometimes controversial industry.

2) Do you support eliminating the HURF transfers to DPS and other non-road construction and maintenance purposes?

Answer: Yes

Comments: I am fiscally conservative and believe that budgets should be made based upon the needs of each organization. DPS should not be infringing on HURF monies. If they need more money their own budget should be audited.

3) Do you support the continued use of bona fide independent contractors in the trucking industry and oppose efforts by state and local governments to reclassify owner-operators as employees?

Answer: Yes

Comments: As a small business owner myself I recognize the importance of independence and making choices for oneself.

4a) Do you support the conversion of our existing infrastructure into toll roads?

Answer: No

4b) Do you support the use of toll roads for construction of new infrastructure?

Answer: No

Comments:

5) On a scale of one to ten (one being low), how important do you believe transportation infrastructure (roads and highways) is to the success of the Arizona's economy?

Answer: 8

Comments:

6) Do you support exploring options to increase revenues for transportation funding through either taxes or fees?

Answer:

Comments: I am always open to exploring new options. It seems that if HURF money was used for its intended purpose a tax increase would not be in order.

7) Do you support or oppose the "Regulate Marijuana Like Alcohol" ballot proposition?

Answer: I support the marijuana proposition.

Comments: Cannabis and hemp would increase revenue across the board. It would open up jobs in many industries and keep money in the US rather than sending it to other countries through cartels.
