10. Currently, alternative fuel vehicles (natural gas and electric) do not pay any taxes or fees for use of the roads. (i.e. a gas tax substitute) Do you believe that these vehicles should pay something for use of the roads, or do you believe that they should continue to get a discount for using alternative fuels?

Answer: I believe alternative fueled vehicles should pay something for use of the roads.

Comments:

11. Currently, both the Department of Transportation and the Department of Public Safety have law enforcement officers that specialize in commercial vehicle enforcement. Do you believe Arizona should look at consolidating all truck enforcement activities under the Department of Public Safety?

Answer: Yes, I believe we should look at consolidating ADOT's law enforcement under the DPS.

Comments: This is a strong example of the redundancy and waste in state government that should be consolidated and streamlined.

12. Given the importance of transportation is to our economic success, how would you propose we solve the revenue shortfall needs for transportation?

Answer: I served in Governor Ducey's cabinet for 21 months and led the Arizona Department of Economic Security, the second largest agency in the state. Suffice it to say, my 633 days as a change agent director confirmed the widespread existence of inefficiency and waste that I thought surely existed as a private citizen. In other words, I am a huge proponent of restructuring and transforming our state government thereby freeing up hundreds of millions of taxpayer dollars to be allocated to pressing projects (e.g. transportation) instead of self-serving, turf-protectionist bureaucrats.
