

# CVSA Offers Inspection Training Courses for the Motor Carrier Industry

Receive inspection training comparable to roadside inspectors, modified and optimized to provide industry with a better understanding of regulatory requirements and out-of-service conditions. Gain the skill set to ensure your fleet and drivers are fully prepared to pass roadside inspections. The Commercial Vehicle Safety Alliance (CVSA) offers two separate weeklong courses:

## INDUSTRY ROADSIDE INSPECTION COURSE Driver Requirements

Learn about driver-related regulatory requirements and out-of-service conditions, including information on regulatory definitions, intrastate vs. interstate operations, commercial driver's license and driver qualification requirements, hazardous materials, hours-of-service rules, trip inspections, annual inspections on commercial motor vehicles and the DataQs filing process.

## INDUSTRY ROADSIDE INSPECTION COURSE Vehicle Requirements

Learn about vehicle-related regulatory requirements and out-of-service conditions, including 49 CFR Parts 393, 396 and Appendix G. The course also explains the North American Standard Level I Inspection Procedure and the Out-of-Service Criteria as it relates to vehicle components.

**Target Audience** – Motor carrier safety directors, fleet managers, technicians, owner-operators, drivers, vendors, etc.

**Cost** – \$995 for members | \$1,195 for non-members

### Real comments from course attendees:

"The training was excellent as it gave industry members a better view of what inspectors are looking for during inspections."

"I've rarely found a course that offered so much information that applies directly to my daily job."

"I would recommend without hesitation."

"Provides real-world insight for preparing driver and equipment not only for compliance but for interaction with agencies while operating."

"From director to driver, this course has it all; an easy way to gain five years of knowledge in one week."

"It is an amazing course. Every person who respects safety, must attend such a course."

"By teaching us mostly the same way you would inspectors, you allow us to take CVSA's culture and the mission of the enforcement inspectors back to our organizations."
